EDMONTON, ALBERTA, MONDAY, DECEMBER 12TH, 1904.

No. 288.

## EARL GREY AND PARTY

### ENROUTE TO OTTAWA

Welcomed at Halifax and will meet  
With Great Reception at Ottawa

#### Bulletin Special.

Ottawa, December 12.—Earl Grey and party left Halifax at midnight for Ottawa by special train. He got an enthusiastic reception at Halifax, and another is awaiting him here.

### BRITAIN'S FLEET

#### TO BE RE-DISTRIBUTED

The Channel Fleet will be made the  
Most Formidable Force Afloat

New York, December 11.—In a special cable from London to-day the New York Herald has the following: Naval changes are being quickly introduced under the new rule of Sir John Fisher, the first sea lord. Every battleship pennant for the first time has been turned to the Mediterranean and the older ships were recalled. For more than a decade the Mediterranean has been Britain's newest as well as largest fleet. Now the policy is to be changed. The centre of tactical control is to be brought nearer to English shores. The home fleet will hold the premier sea command and it is intended that the Channel fleet shall be the most formidable force afloat.

The greatest opportunity ever offered to those looking for useful and seasonable Xmas gifts.

Come where Qualities are the BEST and Prices the LOWEST

**JOHN I. MILLS****EDMONTON'S MAYOR ELECT**

K. W. McKenzie has the distinction of being Mayor of Edmonton for the first year of its history as a city. He was honored by being elected to this position by acclamation on Monday last, December 5th.

Mr. McKenzie was born of Scotch parentage at Lucknow, Bruce county, Ontario, and until he was twenty years of age lived and worked on his father's farm. In that year he met with a distressing accident which threatened to leave him without the use of one of his hands. This caused a change in his prospects and intentions, and when he was twenty-two years of age, he started to school with the public school third class pupils. By diligent study he secured a third class teacher's certificate two years later. The next two years Mr. McKenzie taught school in Ontario and at twenty-seven entered Toronto University from which he secured his degree of B. A. four years later, in 1893. He immediately decided to try his fortune in Western Canada, and in the same year, 1893, attended the first Normal session held at Regina. At the close of the session the principalship of the Lethbridge public school was offered him and he accepted the position. The next year he was the successful applicant for the position of principal of the Edmonton schools, coming to this city in 1895. After serving three years in this capacity Mr. McKenzie decided to leave his profession and enter into business for himself. His natural bent led him to choose the book store business and he has been steadily engaged in this up to the present. His book store has been steadily added to until he now has quite an extensive business.

In 1896 Mr. McKenzie was elected Councillor of the town of Edmonton; and the two following years, the last year of the nineteenth cen-

tury and the first of the twentieth, Mr. McKenzie occupied the Mayor's chair, both years by acclamation. At the conclusion of his tenure of office as Mayor Mr. McKenzie gave up all idea of again offering himself as a candidate for municipal honors. Shortly before nomination day, December 5th, however, he was presented with a very strong requisition signed by nearly all the prominent business men of the city asking him to offer himself as a candidate for the Mayoralty. Mr. McKenzie acquiesced and was elected by acclamation for the ensuing term, 1905.

**CHURCH SERVICES**

Yesterday was anniversary Sunday in the McDougall Methodist church. The morning service was taken by Rev. Principal Riddell of Alberta College, Edmonton, and the evening service by Rev. J. M. Harrison, of Medicine Hat, president of the Alberta Conference. Both services were largely attended and were very interesting. Special music was provided. The offerings, which were liberal, were in aid of the Kinistno Avenue Methodist church.

The services in the Kinistno Avenue Methodist church were taken in the morning by Rev. C. H. Huettis, pastor of McDougall church, and in the evening by Rev. F. W. Cox. The sacrament of the Lord's Supper was dispensed at the morning service.

Rev. D. G. McQueen occupied the pulpit of the Presbyterian church yesterday morning and evening. At the evening service Mr. N. Smith of Duhamel, sang an excellent solo.

The services in the Baptist church were conducted by Rev. A. M. McDonald. The subject of the evening's address was "Are there few that be saved."

The services in All Saints' church were taken by Rev. H. A. Gray both morning and evening.

**Christmas Presents.**

If you have not already enquired from yourself what you will get for Christmas as a present to your friend, you will certainly soon be doing so.

**Many People**

Are disappointed in getting the right thing, because they put off purchasing too long. This is why we want to remind you so early to buy your goods before stocks are depleted. Ross Bros. Limited, have a lovely stock of Holiday Goods, consisting of Ladies' Embroidery Sets, Scissors either single or in Sets, Gentlemen's Travelling Companions, Manicure Sets, Razors and Pen Knives.

**Cutlery**

Of every description, Plated Ware, Shaving Sets, Carving Knives and Sets and Skates and in fact a thousand and one things, that space will not permit to mention. Now these goods are not cheap goods, but are good goods that will be sold cheap. We realize that nearly everyone buying a present for their friends wants to get as nice an article for as little money as possible, with this idea in sight, we have "remarked" much of our holiday goods and we feel confident that you can buy from us nearly twice the amount for the same money, as you can do elsewhere in the city.

**This Seems To Be**

A pretty broad statement but if you will call and inspect and ask the price we are sure you will agree with us. Now remember that we haven't got all the Christmas Goods in town and we expect that our supply will soon be exhausted, so come early and pick out what you want and we will keep it for you until such time as you instruct us to deliver the goods.

MONDAY, DECEMBER 12, 1904.

**AS TO THE PRICE OF OATS**

Some few issues ago the Bulletin voiced the complaints of the farmers as to the price of oats at Edmonton, compared with the prices at Winnipeg. The Bulletin quoted the price of No. 2 white at Winnipeg as 32c to 34c, and at Edmonton as 22c to 24c. The difference being just about what it would cost to take a bushel of oats from Edmonton to Winnipeg, and the inference being conveyed that the buyers were paying the farmers practically only export prices for their oats, while the actual market was more local to Edmonton than to Winnipeg.

It has been objected by the buyers that the Bulletin quotation was unfair, in that it compared the street price in Edmonton with the price on track in car lots in Winnipeg. The latter price necessarily representing the buyers' profits and the cost of placing it in the car and hauling to Winnipeg; over and above the street price at the point of purchase. It was further objected that No. 2 white, as quoted in Winnipeg, is milling quality, and that oats of milling quality are worth 24c to 25c, or even more at Edmonton.

Possibly the objections are well taken, but there still remains a sufficient discrepancy to cause the farmer to hold his oats. Why, he asks, should there be a difference at all against Edmonton, when the railway works of next year are right at Edmonton, and the British Columbia market is closer to Edmonton than to Winnipeg. The only answer to that is that the Winnipeg prices are speculative; based on the speculative demand of next year, and are not justified by quotations now being secured from consuming points in the Kootenay or on the coast. The Edmonton farmer then asks, why does not the Edmonton buyer speculate too? But the Edmonton buyer says he doesn't want to, and doesn't have to. And so the farmer who can afford it, does his own speculating by holding his oats, and business suffers accordingly.

There is this to be said on the subject of holding oats. Some part of the crop was injured by wet in the stack and will not stand storage. While the percentage of such grain lessens the supply of really good and safe grain, and thereby tends to increase the price of such grain, there is a danger to both farmer and buyer that they may be holding the grain whose condition will not warrant its being held. This is something that all parties interested in should take careful note of, and possibly this is one of the things that makes the buyers disinclined to lay in large quantities of oats on speculation.

**FALL WEATHER**

The beautiful weather of all last week is very enjoyable, but is bad for business. The fall of snow the week before gave promise of good sleighing. Considerable hauling on sleighs was done, and there was every prospect of a busy Christmas season. That is all off now unless more snow comes, for the roads are getting worse every day for sleighs, and being slippery, are also bad for wagons with heavy loads. Prices are not sufficiently attractive to bring

out grain unless the other conditions are favorable. The fine weather is excellent for stock, which, as yet, has not felt the pinch of winter. Feed is abundant, and of good quality, and with less than four months of winter in prospect, there is every reason why owners of cattle should hold and feed until spring, instead of selling at the present low prices.

The river is still open in places, and is in a rather dangerous state, for while the overflow along the edges offers splendid opportunities for skating during the warm weather the rapid current tends to wear away the ice underneath, so that the place that was safe yesterday may be unsafe to-day. The crossing at Walter's Mill is still good, and has been so for two weeks; but below the bridge there is no crossing yet with teams.

Building operations were generally suspended during the rough weather of two weeks ago, but some frame buildings have progressed within the past few days, and some brick is being laid on the new jail, to complete the outside walls of the front part, to permit of the roof being put on. Barring the lack of good sleighing, the whole of this fall to date has been all that heart could wish, and one of the best on record.

**WATCH BRACELETS**

The sole object of the Bracelet for centuries has been to adorn. Combine with that the element of usefulness, and you have one of the most acceptable and desirable of ladies' gifts.

Such is the Watch Bracelet. Eat see to it that it is well and truly made; for what use is a bracelet if it be continually separating, or a watch that will not keep correct time?

The above Bracelet is made in our own workshops. It is guaranteed to be heavier and more substantially made than many imported spring bracelets, which have been found unsatisfactory. This Bracelet fits any sized wrist. Its movement is of reliable Swiss make and goes to make complete the most reliable Watch Bracelet on the market. Price,

**We Will Buy****A 50c. Bottle of Liquezone and Give it to You to Try.**

Liquezone is the only way known to kill germs in the body without killing the tissues, too. It is the only way to end the cause of any germ disease. It is also a vitalizing tonic with which no other product can compare. It is new in America, and millions who need it don't know of it. For that reason, we make this remarkable offer. We will buy the first bottle and give it to you if you need it. We will do this gladly to let the product itself show you what it can do.

**We Paid \$100,000**

For the American rights to Liquezone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We paid it because Liquezone does what all the skill in the world cannot do without it. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

**Not Medicine**

Liquezone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and

14 days' time, these gases are made part of the liquid product. The result is a product that does what oxygen does; and oxygen is the very source of vitality, the most essential element of life. The effects of Liquezone are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1.00 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter. That is why Liquezone kills every disease germ, and with a product which to the human body is life.

**Germ Diseases**

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

## CHADWICK AFFAIR

REPORTED ON BY RECEIVER

Mrs. Chadwick will only be able to pay one and a half mills on the dollar

Cleveland, December 12.—According to the most accurate estimate of the estates of Mrs. Chadwick, that are possible, the receiver has reported in his findings to court, her creditors as a whole will receive about one and a half mills on the dollar. Mr. Reynolds will receive the whole of the assets visible at the present time. The extent of her operations is now believed to be approximately as follows: Secured from the citizens and National Banks of Oberlin, Ohio, and various sources, and about Lorin county, Ohio, \$500,000.

Borrowed from Herbert B. Newton, \$30,000.

Borrowed from business men in Pittsburgh, \$500,000, making a total of \$1,030,000.

## TELEGRAPHIC BRIEFS

### GREAT LAKES SHIPPING

Conservatives Filed Petitions against Manitoba Liberals Elect

Winnipeg, December 12.—Navigation closed at Fort William on Sunday. Word was received that nine wheat boats were in shelter at Port Iroquois, near the Soo. Fairmount and Monkshaven are aground at Mud Lake. Zero and blizzard weather prevails.

The Conservatives have filed petitions against all the Liberals elected in Manitoba except Burrows. Ward, the Canadian Pacific railway agent at Hargrave, was arrested for setting fire to the station, which was burned a week ago.

An Islander named Gursion, was cut into three pieces in the Canadian Pacific yards on Sunday. He was gathered up in baskets by the undertakers.

The Hestad dye works and two small stores on Logan avenue were destroyed by fire on Saturday afternoon.

Frederick Villiers, war correspondent, went through to Hethersington, Ottawa, December 12.—Hethersington, who was appointed immigration agent at Boston to induce settlers to go to the North West, claimed that during the last fifteen months fifty thousand New Englanders crossed to Canada.

Toronto, December 12.—Alex Downie, the well known stenographer, is dead.

Winnipeg, December 12.—A Souris settler was instantly killed. He upset on a hill.

### For London Poor

London, December 11.—Lord Mayor Pount has issued an appeal for funds for the relief of the unemployed of London. King Edward has contributed £1,150; Queen Alexandra, £1,000; Prince of Wales, \$500; the Princess of Wales, \$250; Lord Leighton, \$25,000; the Rothschilds, \$150,000; Duke of West Minister, \$1,000; Peabody trustees, \$25,000.

### McKellar Resigns

Winnipeg, Dec. 12.—The McKellar trial concluded on Saturday. Judges Myers and Walker reserved judgement till after a review of the evidence. The inquiry showed gross mismanagement of the department in connection with the issue of marriage licenses. Chief clerk McKellar has resigned his position.

### INTEREST IN MUNICIPAL AFFAIRS

The Calgary press has been complaining that the ratepayer of that city did not take the necessary interest in municipal affairs. The Herald says:

Nothing better illustrates the amazing apathy in civic affairs than the citizens' meeting last night. There were less than two hundred persons present. It was in no sense a representative gathering. Few of the leading business men of the town were there. This is more extraordinary in view of the newspaper agitation and general discussion, that the present situation has developed. At no time in the history of the city have there been matters of more vital importance to the prosperity of the community up for discussion. The financial relations, the charge of the civic system, the municipal ownership of street and domestic lighting, and the fitness of candidates were the subjects, that were urgent and conspicuous—yet less than two hundred citizens thought the meeting worth their attention. It is a melancholy comment on the public interest in the progress of the city.

## PRINCE EDWARD ISLAND ELECTIONS

Halifax, N. S. Dec. 7.—The tidal wave of Liberalism, checked by the reverse at the Dominion elections in Prince Edward Island came back today and swept the Conservatives off their feet in defeat and demoralization. So far as known, twenty Liberals and nine Conservatives have been elected, but the late vote may increase the majority.

Prince county has gone solidly Liberal returning ten members. In some cases with largely increased majorities. Queens returned eight Liberals and two Conservatives, and Kings three Liberals and seven Conservatives. Charlottetown was practically a landslide for the Government. Warburton and Hughes taking the largest majorities ever known in the city.

Premier Peters narrowly escaped defeat having only six votes to spare and the special vote may make his seat still more precarious. Hon. Mr. Cuminsky, commissioner of public works, is seven votes behind, but the special votes will probably put him in.

The election was one of the most exciting ever held in the province, and both parties worked hard, with fine weather and good roads, bringing out a large vote.

The following is the vote up to 9.30 a.m. on election night:

Charlottetown—Hughes, Liberal, 250 majority; Warburton, Liberal, 510 majority; over Dr. McNeil and P. S. Brown, Conservatives.

Queens county, first district—Simpson, Liberal, 552; Campbell, Conservative, 519; Smith, Liberal, 451; Nicholson, Conservative, 659; two polls to hear from.

Second district—McMillan and O'neill elected by 200 majority each over Currie and Doyle, Conservatives. Third district—Cuminsky, Liberal, 534; McCourt, Conservative, 541; Palmer, Liberal, 741; Wood, Conservative, 749.

Fourth district—Hazard, Liberal, 544; Wood, Conservative, 508; Irving, Liberal, 731; Nicholson, Conservative, 662.

Prince county, first district—Agnew, Liberal, 726; Turner, Conservative, 515; Galt, Liberal, 1,045; Hackett, Conservative, 716.

Second district—Richards, Liberal, 461; McWilliams, Liberal, 300; Bolger, Conservative, 151; two polls to hear from.

Third district—McNutt, Liberal, 461; McDonald, Conservative, 367; J. P. H. Arsenault, Liberal-Conservative, 557.

Fourth district—Capt. Read, Liberal, 518; Anderson, Conservative, 426; S. E. Reid, Liberal, 700; Delaney, Conservative, 563.

Fifth district—Godkin, Liberal, 267; Wyatt, Conservative, 198; K. L. K. Liberal, 86; McNeil, Conservative, 393.

King's county, first district—Fraser, Conservative, 624; Acorn, Liberal, 555; John Kiekham, Conservative, 404; Thos. Kiekham, 400.

Second district—Peters, Liberal, 491; McEwen, Conservative, 488; McInnis, Liberal, 389; Mr. Isaac, Conservative, 331.

Third district—Bowden, Liberal, 328; Kelly, Conservative, 312; Morrison, Conservative, 476; McLaren, Liberal, 450.

Fourth district, with two Conservative polls to hear from—McKinnon and Prowse, Conservatives, elected over Inman and Cook, Liberals.

Fifth district—A. J. McDonald, elected by acclamation; Matheson, leader of the opposition, elected by eighty over Jenkins, Liberal.

The result is a great disappointment to the Conservatives, who were dead sure of winning. A peculiar feature of the result is that in the federal elections, Prince and Queen's went Conservative, and King's went Liberal. In the local election it was just the opposite. Charlottetown city is full of cheering and enthusiasm.

### LOCAL

—The Manchester House, W. Johnston Walker's, will be open until ten o'clock every evening until after Christmas.

—The Bulletin staff were made the recipients of a box of choice Le Pain cigars by H. V. Shaw, proprietor of the Edmonton Cigar Factory on Saturday. A handsome hanger, showing a large elk, at the edge of a northern pond, was also left at the office. It is one of a large number of very pretty gifts that Mr. Shaw is distributing this Christmas.

—Free Press.—George Parslow, manager for Cushing Bros. Co. Ltd., of Edmonton, passed through the city yesterday, returning from the city where he was called by the death of his father. A large amount of native lumber is used by the firm in its operations. The material being supplied largely by two local mills. The larger of the two local mills cut over 10,000,000 feet of native lumber this year. In addition to the lumber cut in the local mills, a large amount was brought into the city from saw mills in the surrounding country. 100,000 feet being brought in by team, a distance of fifty miles. The building done in this town during the summer is evidenced by the fact that this firm alone received on an average over a year a day of building material.

### PERSONAL

C. W. Cross went to Wetaskiwin this morning. Judge Scott left this morning for Wetaskiwin.

Jas. C. Gordon left this morning on a visit to Ontario friends.

Rev. Father Thorien, O.M.I., arrived to-day from St. Paul des Metis.

John Ross returned to the city from a trip down the line Saturday night.

Col. Sam. Hughes, left Edmonton at noon Saturday overland to Lloyminster.

When linen looks like cotton after washing that is the result of poor soap.

## Sunlight Soap

is a pure, scientifically made soap, which washes linens perfectly white without the least discoloration or injury to the fabric.

Equally good with hard or soft water.

### BRIGADE CALLED OUT

At eleven o'clock this morning an alarm of fire was rung in to the fire hall. The brigade quickly responded and fire was discovered at the residence of J. W. McCartney, corner of Fraser avenue and Fifth street, children had been playing with matches in an upstairs room and a blaze extinguished, but not before the alarm was sent in. A blackened wall was the only result of the blaze.

## ST. PETERSBURG IN AN UPROAR

### STUDENTS AND POLICE CLASH

Special Police and Troops Called up and the Disturbance Ends in Blood Shed. Workmen Offer Fierce Resistance to the Police

Tokio, December 11.—The battering by the Japanese of Port Arthur fleet will continue, and there is little ground for expecting that they even will engage the Japanese main. The battleship Sebastopol continues at anchor outside, but possibly returns to the harbor at night and anchors inside of the harbor boom, which protects them from the torpedo boats. The recent heavy weather has given protection to the vessels. Naval experts are discarding the theory that the Russians themselves have sunk many of the ships, and the fact that the vessels first showed lists while in exposed positions, and the efforts made to save the Sebastopol, are regarded as conclusive evidence against the theory of their being sunk by the Russians. A majority of the sunken warships received the bulk of the fire across their port sides, and the fact that at least two of them showed lists to the starboard gives rise to the theory of Japanese shells, exploding inside the ships, and against the starboard armor, driving the armour outwards, and causing leaks. In order to end the question of the availability of the Russian warships, the Japanese continue to drop shells into the sunken hulls. The situation of the torpedo boat destroyers continues doubtful, but it is thought that they are sheltering outside of the harbor. The weather prevents a good observation by the Japanese are sending a searching fire into nooks which are not observable from 203 Meter Hill and other heights.

St. Petersburg, December 11.—The city is in the hands of a mob. The rioters of 1891, when Cossacks stretched across the Nevsky Prospekt, from building to building, charged down the boulevards from the Moscow station to the Neva, has the Russian capital lived through such a day of excitement as this. The authorities last night got wind of the big anti-government demonstration planned for to-day by the socialist-democratic party, to demand an immediate end of the war and the holding of a national assembly. Leading papers this morning, in black-faced type, gave an explicit warning to the people, at their peril, to desist from congregating in the Nevsky Prospekt, near the Kazan Cathedral. At the same time, extensive preparations were made to quell any disturbance by the massing of the police and mounted gendarmes. The Chief of Police issued explicit directions to avoid harsh measures until they should become absolutely necessary. The newspapers' warning seemed to attract the whole population of the city to the broad thoroughfare. Inside the walks were practically the whole of the student body of the capital, including many young women, who have always been prominent in Russian Liberal revolutionary movements; also thousands of workmen belonging to the social labor party. Towards one o'clock the workmen and students began to swarm towards the corner of the Hotel Europe, opposite the Kazan cathedral. The police tried in vain to quiet them. There was not a single mounted policeman in sight when from the heart of the thickly wedged crowd a blood-red flag suddenly shot up. It was the signal; other flags appeared in other parts of the crowd, waving frantically over the heads, and they were greeted with a hoarse roar, and "Down with autocracy." The students rushed in to the streets singing the "Marseillaise." Dismounted police made a single attempt to force their way into the crowd to wrest the flags from the demonstrators, but the students and workmen, armed with sticks, stones and heat back their assailants. Then like a flash from behind the cathedral came wheeling a squadron of gendarmes. The doors of adjoining courtyards were thrown back and battalions of police came out. A double squadron charged the front of the demonstrators with drawn sabres. Five other squadrons then charged the mob, cutting through the spectators. The main wedge of the demonstrators stood fast only for a moment or two. There was a sharp rattle of edgels and sabres, though the wounds showed the police struck principally with the flat of their sabres. The women were especially fierce in their resistance. Many were struck and trampled on. The police urged their horses fiercely into the crowd, and many were killed.

## THE GAS WELL

VISITED BY CROWDS YESTERDAY

A Depth of One Thousand Feet has

Now Been Reached and Gas Pressure is Steadily Increasing

From early morning until midnight yesterday a constant stream of people visited the gas well being sunk by the North West Gas and Oil Company on the Ross flats near the Exhibition grounds.

When drilling ceased Saturday night the well was capped and a pipe leading outside of the derrick house was attached. The gas was then then lighted as it issued from the pipe. The flame was about eight feet long and as it began to get dark in the evening the whole neighborhood was illuminated, the reflection being seen from any part of the city. The gas was struck at about ten-thirty o'clock Thursday evening and it has continued to flow with steadily increasing pressure ever since. The gas was led out of the derrick house yesterday to avoid possible accidents from the house getting full of it and an explosion resulting.

Mr. Dingman, manager of the company sinking the well, who is in charge of the operations is delighted with the prospects of soon striking a very great pressure. The gas which is now flowing is either an exceedingly large pocket or is being steadily forced up from below by an enormous pressure.

The well is now passing through a slate formation and not the kind in which the company expected to locate the gas. However the formation is very similar to that through which the wells pass at Medicine Hat before gas is struck in large quantities. This circumstance, and the steadily increasing pressure of gas, as the well is sunk deeper and deeper lead those in charge of the work to believe that an exceedingly large gas flow may be struck at almost any time. The well has been sunk two hundred feet below where gas was struck Thursday night and the well has now reached a depth of 1000 feet or almost 1200 feet below the level of the city.

The gas indications are most promising and the quality of the gas now issuing from the well is of first class commercial value. The gas is odorless. The work of drilling goes on continuously from 12 o'clock Sunday night to 12 o'clock Saturday night. The gas now issuing from the well is being got under control to-day and an effort is being made to have it take the place of coal at the company's drilling operations, starting immediately.

### Fall Wheat Successful in North Alberta

Farmer's Advocate:

Those who have not had an opportunity of observing the crop conditions in Northern Alberta during the last few years may hold the opinion that Southern Alberta is the only part of that Western Territory where fall wheat can be successfully grown. This, however, is a mistake, for it would appear that the time is not far distant when fall wheat will be one of the main crops throughout the grain-growing districts of Alberta, both North and South. In writing his experience with fall wheat, Ira W. Russell, Lacombe, in a letter to the "Farmer's Advocate," states that in the year 1900, he brought two sacks of Turkey Red winter wheat from Iowa Experiment Station, and sowed it late in September. The following spring it looked weak and was thin, but it harvested twenty-five bushels to the acre. The following year he sowed four acres each of Dawson's Golden Chaff and Kansas Red, the latter being supplied by the U. P. R., but both varieties were killed out entirely, as there was but little snow during the winter. In the latter part of August, 1902, he sowed twelve acres of Turkey Red from seed grown the year before. This seed proved to be somewhat weak in vitality, and a thin seeding was the result. It looked fairly well, but Mr. Russell declares it was too thin and late for a good sample of wheat. Nevertheless, twenty-three bushels to the acre was the yield. On August the 8th, 1903, sixteen acres were sown from the seed previously grown. The seed was scarcely sown thick enough to make up for the poor vitality, and the stand did not prove to be all that could be desired. Six acres had to be plowed up and sown to oats, but the balance proved to be a fair crop, and though not threshed at the time of writing, he believes twenty-five bushels to the acre will be the yield. He has, also, this year, three small plots of Turkey Red, Dawson's Golden Chaff and Frostproof May, the yield of which is estimated at forty bushels per acre. This fall, twenty acres of Turkey Red were sown on July 20th, and before winter set in was looking particularly well, young stock being allowed to pasture on it to keep it from obtaining too much top.

In summarizing, Mr. Russell says: "I think winter wheat will pay to raise here. We need to know a little more about it. On land like mine, it will have to be sown early, in order to get ripe before frost on light clay or sandy soils, later will do."

### They Want Blood

Vancouver, B. C., December 5. — (An important conference took place here this morning between the British Columbia lumbermen and the Hon. Mr. Templeman, and Messrs. Ralph Smith, W. Sloan, and Duncan Ross, M. P.'s elect, regarding the question of the imposition of a duty of \$2 per thousand on rough lumber, thereby shutting out American lumber from the Manitoba and North-West markets. It was pointed out that while in 1903 imports of American lumber were 60,000,000 feet, in 1904 they reached 140,000,000. As a result of unfair competition, many British Columbia mills were closing down and the industry would be ruined.

The imposition of a duty would not cause an advance in the price of lumber in the North-West. Farmers there enjoyed protection on their products, and it was only fair that British Columbia lumbermen should be accorded protection.

Several of the lumbermen expressed themselves as agreeable to reciprocity in lumber with the United States, which would increase their market. Duncan Ross, M. P. elect for Yale-Cariboo announces himself as being in favor of protection.

Senator Templeman, in reply, promised to lay the matter before his Dominion Cabinet colleagues, and advised that a deputation be sent to Ottawa, by the millmen in support of their petition.

**Come Early and Select Your Christmas Presents.**

# REVILLON BROTHERS LIMITED.

### GRAIN GROWERS' ASSOCIATION

W. R. Motherwell, president, and John Millar, secretary-treasurer of the Territorial Grain Growers' Association, have issued the following circular:

The principal difficulties that confronted us as a body at the time of our organization, and indeed was the occasion of our coming together as an organized body, have been largely corrected or removed, and it would appear as if we are now at the parting of the ways, where we must either branch off into new lines of work more intimately allied with actual successful grain growing, or else suffer the natural consequences of not being fully and profitably employed. Of course, it goes without saying that what we have gotten under much tribulation, we must hold, and that means a certain necessary activity, but that is not sufficient—we must either advance or recede. It lies with the individual farmer to say which it shall be. At the coming annual meeting, besides the ground we have usually covered on similar former occasions, steps have been taken to have papers on agricultural topics, read by leading men in the West. The important experiment in bread making, conducted by the Territorial Department of Agriculture, in the various grades of wheat, down to feed, will doubtless be considered, particularly in its suggestive relationship to our present system of grades.

The success and strength of the annual convention to be held at Regina on December 13 and 14 will depend the extent and direction of our usefulness as an organization during the coming year. If the Grain Growers' Association has commended itself to the producers

of the West during the past three years, then we confidently appeal to them for a continuance of their support, so that greater things may be attained than have been.

Besides the usual programme for our coming annual meeting at Regina, the following gentlemen have been requested to read papers on the subjects opposite their respective names:—

Angus McKay—Results of experiments with early maturing wheats.  
R. J. Phin—Surface draining, and how it may be made conducive to earlier seeding.

Chas. Sanderson—Some thoughts on our system of grading wheat.

Ed. A. Partridge—How may the Grain Growers' Association be made more useful and permanent.

## LOCAL

—Hockey to-night.  
—Train one hour late.  
—To-morrow is band night at the Thistle Skating Rink.  
—H. A. Conroy and party left for the north on treaty payment, on Saturday.

—The Agricola Christmas entertainment will be held on the evening of December 21.

—The Marks Bros. Company arrived in the city on Saturday night, and will show here all the week.

—A lecture will be given in the College avenue Methodist church Wednesday evening on Canadian Patriotism by Rev. J. M. Harrison, of Medicine Hat, president of the Alberta Conference.

—Professional examinations for teachers, for first and second class certificate holders, will be held in the senate room of the Edmonton High School, December 17th to December 22nd.

—Owing to a possible accident happening, the North West Gas and Oil Company management have decided not to allow any person to enter the derrick house at the gas well without written permission from the manager.

—Wetaskiwin Times: The first shipment of electrical machinery arrived in the town last week, and is now being installed. Owing to the delay in shipping the other appliances, the light will hardly be ready on or before the first of the new year.

—The receipts at the Innisfail creamery for November, the first winter month, totalled 6,588.6 inches of cream; 7,386 pounds of butter being made. The month ended on December 3. The creamery directors have been advised that the price for the summer season's butter is an excellent one, there being a good increase over last year's price.

—Times: J. J. Sullivan, engineer in charge of the Wetaskiwin and Lacombe extensions of the C. P. R., left on Saturday morning, December 3, accompanied by A. E. Sharpe, resident engineer, for Lacombe, to revise the location from the twenty-fifth to the fiftieth mile. Mr. Sullivan anticipates finishing the revision about Christmas week. Wetaskiwin line also will be extended to the fiftieth mile, the survey having been made some time ago.

—Free Press: Twenty tons of gold have been produced by the Klondyke proper, the district within the radius of fifty miles of Dawson, since January 1 of this year. In other words the output of the Klondyke since the first of the year is \$9,200,000. The royalty collected on the gold by the Government for the year was \$230,260. The output of the Klondyke last year was at least two millions heavier than this year. The bumper year at the camp was in 1900, when the output was placed at \$226,000,000. Since that time the cream of the richest claims has been taken, and the lower grade areas are now being worked.

—The Choral Society are having a social evening on Tuesday, Dec. 13th, in Sandison Hall. There will be reports from committees, games and refreshments.

—There has been splendid skating on the river during the past day or two. In places the ice is not yet very strong, and more than one person has had a very narrow escape from the ice breaking.

—The St. Andrews brotherhood of All Saints' church will meet in the school room of the church at seven thirty o'clock this evening. A social evening will afterwards be held in the same place, commencing at eight-thirty o'clock.

—The regular meeting of the Edmonton branch of the Women's Christian Temperance Union, will be held on Wednesday, afternoon, 14th, inst., at half-past three o'clock, at the residence of Mrs. Jas. McDonald, on College avenue.

—The eight o'clock mass in St. Joachim's church was said by Rev. Father Girard. O.M.I. Father Husson sang the High Mass. Father Jan preached. Father Girard officiated at vespers. The sermon was delivered by Rev. Father Ledue.

—The ladies of St. Joachim's church will hold their second social to-morrow evening in Houston's Hall. All members of the congregation, and especially new comers, are invited to be present. Games start at 8.30 sharp. Admission free. Refreshments free.

—The Marks Bros. Stock Company appear in Robertson Hall every evening this week. On Monday evening they present "The Irish Boarder". Tuesday, "Jerry the Tramp". Wednesday, "The Duke's Daughter". Thursday, "An Irish Immigrant". Friday, "A Soldier of France". Saturday afternoon, "The Little Minister".

—Free Lance: The annual meeting of the Innisfail Hockey Club was held last Saturday evening. President Geary occupied the chair. The election of officers took place, resulting as follows:—Patron, G. T. Lundy; Hon. President, H. M. Stewart; Hon. Vice-President, S. P. Fream; President, W. G. Wilson; Vice-President, Wm. Geary; Secretary-Treasurer, T. C. Ousum; Committee, E. B. Nowers, J. C. Ruminen and A. Tatum; Captain, J. A. Lundy.
